

Alphabetical Customer ID Entry

From SFA 1.0.3, you can use alphabet to enter the customer id. Please tap the 'Customer' label to toggle the numeric keypad and full keyboard. SFA remembers your choice.

Notice

- After upgrade the SFA and download master, please restart the device. Otherwise this functionality won't be active.
- This functionality is allowed to the selected branches, if you need this function but it is not available on SFA 1.0.3 or after, please consult the office admin.
